The Cresskill Educational Foundation (CEF) and the Cresskill Environmental Commission (CEC) are proud to sponsor the first annual **Cresskill Earthfest** to celebrate Earth Day and to raise awareness of environmental issues and solutions, both locally and globally. This annual fundraiser will benefit Cresskill Public Schools.

Our focus will be on increased use of bicycles and alternative or cleaner forms of transportation and power.

Come join us and learn how you can help Cresskill become a cleaner and greener community
